### VINIFICATION:

The Glera grapes are gently pressed and the must obtained is fermented in steel tanks at a cool 16°C. For the Pinot Noir grapes, vinification with the skins is carried out with particular care in order to extract only the most elegant colour and aromas that the variety can express, thanks also to a delicate maceration at 22°C. The two base wines are blended then transferred to a pressurised tank for a second slow fermentation followed by refinement on their own yeasts for at least two months, until they achieve that unmistakable rosé colour and a fine, strong effervescence.
